AceHide Free Crack +

AceHide Free is a Windows application that provides an easy way to organize the work space on your computer. The application hides all open windows and thus provides a neat solution to save space on your screen. As a Windows program, AceHide Free can be very useful to all those working with multiple applications and thus prefers an organized working environment without having to close the active windows every once in a while. Moreover, AceHide Free is capable of hiding the active window automatically in just a few clicks of the mouse and supports multiple window types, including MS Office and Adobe Reader. The application includes a System Tray icon that can be used to hide the active window in just a single or a double click and also shows the hidden windows in the System Tray menu. Additionally, AceHide Free has some extra features like automatic launch on Windows startup, show the hidden windows when you exit an application and the invert mouse buttons to open the System Tray menu. This utility is a really useful software tool and could come in very handy for all those working with multiple programs at the same time. Key Features: * Automatically launches at Windows startup * Show and hide a window with a single or a double click on the System Tray icon * Hide all windows and show them with a single click on the System Tray icon * Hide the active window with a single or a double click on the System Tray icon * Hide all windows and show them with a single click on the System Tray icon * Invert mouse buttons to open the System Tray menu * Supports the following window types: MS Office 2007, Microsoft Office 2003, Adobe Reader * Launch the application from the System Tray icon * Hotkey support to configure keyboard shortcuts * Supports the following languages: English (United States), English (United Kingdom), French, Spanish, German, Italian, Japanese, Polish, Portuguese (Portugal), Russian, Greek, Czech, Turkish, Greek, Portuguese (Brazil), Finnish, Swedish, Danish, Danish (Norway), Dutch, Romanian, Vietnamese, Korean, Chinese (Simplified), Chinese (Traditional), Polish, Czech, Romanian, Vietnamese, Finnish, Swedish, Danish, Dutch, Romanian, Greek, Bulgarian, Hungarian, Turkish, Romanian, Polish, Czech, Croatian, Danish, Dutch, Swedish, Finnish, Romanian, French, Spanish, Swedish, Finnish, Danish, Dutch, Romanian, French, Danish, Swedish, Finnish, Danish, Polish, French, Spanish, Portuguese (Brazil), Portuguese (Portugal),

What's New in the AceHide Free?

AceHide Free is a very simple Windows utility that helps you hide any window instantly and thus save space on the screen. The application can come in very handy to all those working with multiple programs at the same time and want a better organized working environment without having to close the active windows every once in a while. AceHide Free places an icon in the System Tray and thus lets you hide or bring to front a certain window at any time, providing a few customization options to enhance this process. Probably the most important configuration tool is the hotkey support that enables you to set up keyboard shortcuts to show and hide windows on the go. Additionally, you can use the System Tray icon to hide the active window with a single or a double click. Plus, AceHide Free can automatically load at Windows startup, show the hidden windows in the System Tray menu, reopen all windows when you exit an application and even invert the mouse buttons when you open the System Tray menu. Although it is a pretty old utility, AceHide Free works flawlessly on Windows 7 and you don't even need administrator privileges to run it. Plus, it doesn't eat up CPU and RAM at all, remaining friendly with computer resources all the time. All in all, AceHide Free is a quite a useful software tool that quietly sits in the System Tray and provides a nice way to organize the working space. And the hotkey supports makes everything so much faster. 3.8 2.2 June 11, 2018 SuicideCore 1.0.1 SuicideCore is the best alternative to your Windows Task Manager.
